

**Index of Names on the
1851 Rawdon Census
(February 1852)**

La Paroisse de St-Patrice / 12
County of Leinster / 179
LAC Microfilm C1124

The names are transcribed as I have read the writing of the enumerator. Additional columns of information are on the microfilm and may be viewed on Ancestry

Misspelled names are highlighted in **blue**. Some English Christian names were consistently given a French spelling (which was usually misspelled) e.g. Margurite (instead of Marguerite) for Margaret and Suzann (instead of Suzanne) for Susan. Sarah is consistently misspelled as Sera and Ellen is often written Ellin.

The enumerator seldom used accents on French names. With one exception, André, I have not attempted to correct missing accents.

When the corrected name is highlighted in **gray** it means I am not sure if the alternative spelling is correct.

I have corrected the transcript by adding a name in brackets when the census taker has omitted a child's surname or given the child the name of its mother. I have used my knowledge of the family in question on these occasions.

Names highlighted in **yellow** are either illegible or not understandable by me or I am unsure what the correct spelling should be. For some I have placed a possible version in brackets. Others are in doubt for other reasons.

There are many French names of doubtful spelling but I did not feel qualified to comment. These are recorded without comment.

When a name is obscure and of doubtful spelling, I have sometimes added the gender (as shown by the enumerator) in brackets or as a footnote.

Footnotes have been added to identify individuals whose residence is noted as other than Rawdon. Other footnotes contain additional information to help identify the individual.
